

HOMETOWN HERO:

# Brenda Insalaco

**"Brenda has been a part of my family for the past five years."**

Brenda has been a part of my family for the past five years. She is a wonderful speech pathologist who goes way beyond the call of duty every single day. She has endless patience with my children and is truly such a blessing in our lives. She continues to have new ideas for their treatments and always strives to engage them and spark their interests. They look forward to her coming for therapy because she is fun. I look forward to her coming because I can always share their accomplishments and their problems with someone who cares about their well-being. Brenda is definitely a hometown hero to our family.
