

HOMETOWN HERO:

Rita Patterson & staff

“Rita and her staff provide sensory integration therapy in a way that makes it fun for kids of all ages.”

I was surprised to hear that Rita has not gotten one of these because it seems like everyone knows Ms. Rita. Rita and her staff provide sensory integration therapy in a way that makes it fun for kids of all ages. Even when running the operation out of her basement, she and her staff had things that Kennedy Krieger wished they had. And the fact that she was willing to sacrifice that much space and do such a good job with it is worthy to begin with. I can carry heavy and bulky objects now, because of the Occupational Therapy I’ve received.
