

HOMETOWN HEROES:

Primary autism team, Point Pleasant Elementary

KAREN HAHN-WALTER, PATRICIA MCPHERON, ANN LINDSEY, TAMMY MORGAN, KIM ALLEN

“These five remarkable ladies should be commended for their efforts.”

It is my honor to nominate these five individuals who have continually demonstrated their commitment to children on the autism spectrum. Led by Karen Hahn-Walter, they represent one of Point Pleasant Elementary’s two classrooms for children on the spectrum. They work together to make the school experience for their students a rich and rewarding atmosphere that helps them to succeed. On a daily basis they work with children on the spectrum as well as the their peers, and the faculty and staff of Point Pleasant to further enrich the school environment and create a place where children on the spectrum can be understood and accepted. These five remarkable ladies should be commended for their efforts, and given thanks from all of us at Point Pleasant and the community for everything they do each and every day.

NOMINATED BY: Teresa Rimel, Parent
